

Proof of Participation Galaxy Training Academy 2025

Stefanos N. Fragkoulis

has completed modules from the
Machine Learning Track

This course was organised
by the Galaxy Training
Network, in collaboration
with:

- the Galaxy Project
- Galaxy Europe,
- Galaxy Australia
and the Australian
BioCommons
- TACC.

Instruction provided by our global
instructor community of Galaxy

The course consisted of a week
of online, asynchronous
training which enabled
participants to work at their
own pace and on their own
schedule. The workshops
consisted of a blend of
seminars and hands-on
practical work.
Each track lasts 3 days.

The Training Academy Organizing Team

Completed Tutorials

Introduction to machine learning, Regression in Machine Learning, Classification in Machine Learning, Deep Learning (Part 2) - Recurrent neural networks (RNN), Deep Learning (Part 3) - Convolutional neural networks (CNN)
